MesoHair

RECOMMENDED FOR THE TREATMENT OF ALOPECIA
AND OTHER HAIR CONDITIONS

10 x 5mL Vials

STAGES OF HAIR LOSS

CSC MesoHair is a peptide serum created for reinforcement of hair bulbs to prevent hair loss. This intensive therapy is recommended for people with premature hair loss.

HOW IT WORKS

Can be used in areas of general hair loss or areas with alopecia. Main indications : non-androgenic alopecia, women over 50 years of age, hereditary alopecia, graying hair, dandruff. Acts by reducing levels of DHT (dihydrotestosterone) in menopausal women, protects/repairs structural components of hair, stimulates cell metabolism, prevents loss of hair, improves scalp micro-circulation, slows hair follicle ageing, accelerates hair re-growth

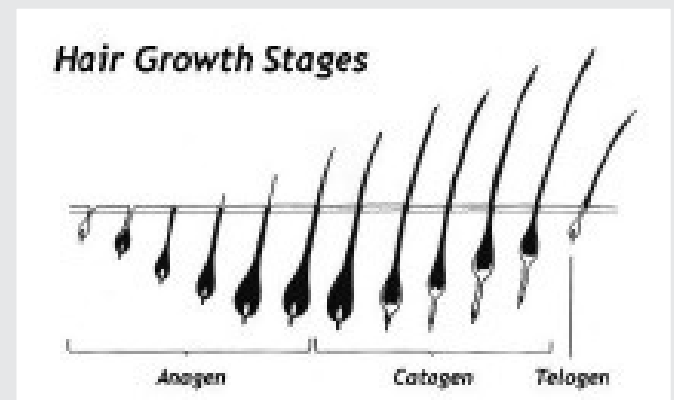

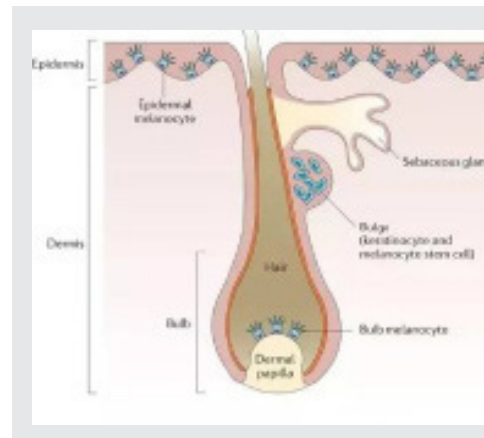

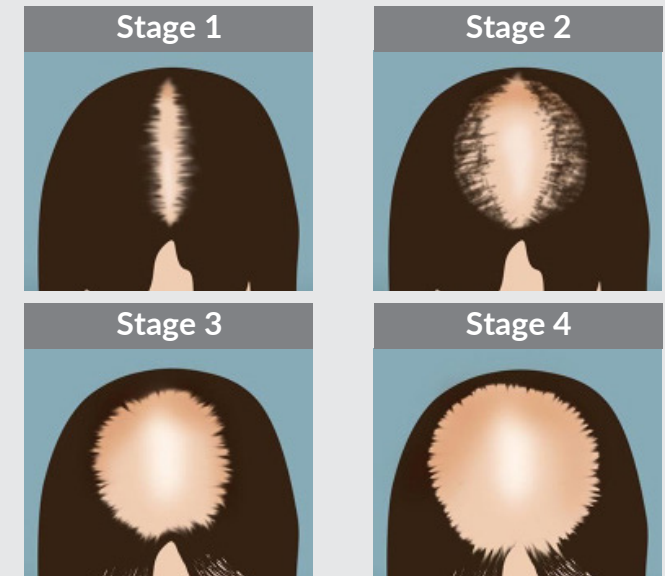

DIRECTIONS FOR USE

Cambridge Skin Code MesoHair Can Be Used In Combination With:

- Electroporation
- Manual scalp massage
- Dermal roller
- Dermapen
- Nanopen

APPLICATION AREAS

- All areas of excessive hair loss
- Areas of alopecia
- Areas where hair is thin or sparse

Rich in amino acids and vitamins. Improves hair growth by improving micro-circulation and stimulation of hair bulbs.

ADVANTAGES

- ✓ Completely safe
- ✓ For alopecia of all kinds
- ✓ Reduces DHT levels
- ✓ Protects and repairs hair roots
- ✓ Improves scalp micro-circulation
- ✓ Slows follicle ageing process
- ✓ Accelerates hair growth

TREATMENT

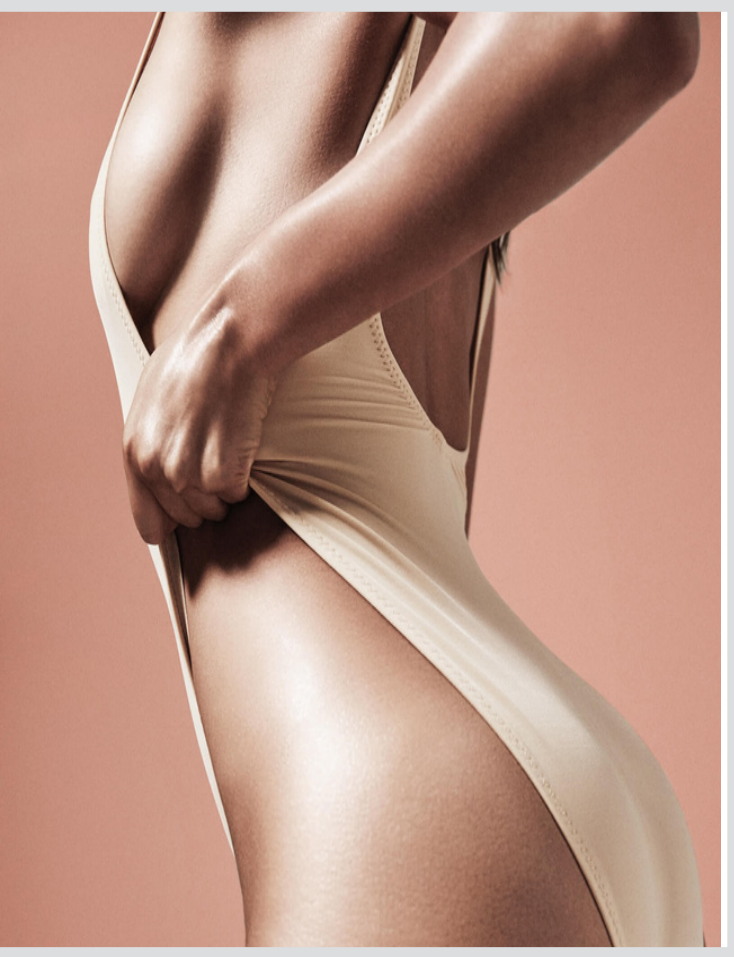

For optimum effect, it is recommended that the patient should have a twice weekly treatment with CSC MesoHair for upto a total of 6 to 10 treatments, depending on the severity of alopecia. Can be combined with derma roller micro-needling etc.

PREMIUM COCKTAIL

- ✓ Caffeine
- ✓ Amino Acids
- ✓ Thiamine hydrochloride
- ✓ D-Pantothenic Acid
- ✓ Pyridoxine hydrochloride
- ✓ Niacinamide

MesoSlim

FOR THE TREATMENT OF FAT ACCUMULATIONS AND
CELLULITE

Cambridge Skin Code MesoSlim is a unique serum created for treatment of areas with localised fat cell accumulation and cellulite formation. Cellulite is caused by excessive storage of fat in the adipocytes.

HOW IT WORKS

Cambridge Skin Code MesoSlim is an optimised blend of phosphatidyl choline and deoxycholate, which work in synergy to eliminate fat deposits in thighs, hips, abdomen, buttocks, knees etc. Cambridge Skin Code MesoSlim is a sterile solution for application. Sodium deoxycholate is a bile salt that promotes fat cell disruption, and phosphatidylcholine, a component of the cell membrane, causes emulsification of released fat. It is recommended for women and men of all ages.

DIRECTIONS FOR USE

Mesotherapy Treatment with CSC MesoSlim Can be Performed in Combination With:

- Electroporation
- Derma-roller
- Dermapen
- Micro-needling

APPLICATION AREAS

- Thighs
- Knees
- Hips
- Abdomen
- Buttocks
- Double chin

ADVANTAGES

- ✓ Safe and effective
- ✓ Made from natural materials (bile salt & cell-wall component)
- ✓ Breaks down redundant fat naturally
- ✓ For men and women
- ✓ Activates lipolysis
- ✓ Reduces cellulite formation
- ✓ Disrupts adipocyte lipid storage

TREATMENT

- ✓ Reduces cellulite Can be
- ✓ applied in most areas
- ✓ Painless and short down time
- ✓ For all skin types
- ✓ Inhibits adipocyte growth and lipid storage

PREMIUM COCKTAIL

- ✓ Phosphatidyl choline
- ✓ Deoxycholic acid
- ✓ Balanced formulation
- ✓ Sterile
- ✓ Safe and effective

MesoLift
